

Summer Math Assignment Seventh Grade (2011-2012)

Summer math assignments for Notre Dame Elementary School will use the Mathletics website (www.mathletics.com).

Incoming seventh grade students are required to complete the following sections by the first day of school. It is strongly recommended that you do not wait until the last days of summer vacation to complete your Mathletics assignment. Suggested completion dates are also included below.

Category	Sections	Suggested Completion Date
Numbers and Operations	All sections, including "Are You Ready" and Test	June 29
Using Fractions and Decimals	All sections, including "Are You Ready" and Test	July 16
Algebra	All sections, including "Are You Ready" and Test	Aug. 1
Equations	All sections	Aug. 18

All sections under each category must be completed. "Something easier" and "Something harder" sections are optional. Students can access help for each problem by clicking on the large "?" on the left of the screen. (There is no help function for "Are You Ready" and "Test" sections.) Students need to achieve a score of 75% or higher on each section.
